

# Le Xuan Hao (Harry)

## Full-Stack Developer

Hanoi, Vietnam / [github.com/xuanhao1804](https://github.com/xuanhao1804) / [linkedin.com/in/harry-lee-912104318](https://linkedin.com/in/harry-lee-912104318)

### PROFILE

Full-stack developer with hands-on experience building Shopify and e-commerce web and mobile applications. Worked mainly with React, React Native, Node.js/Express, TypeScript, and RESTful APIs. Experienced in third-party integrations, bug fixing, legacy-code refactoring, databases, API testing, Git, and Agile/Scrum.

### WORK EXPERIENCE

APR 2026 - JUN 2026

#### Full-Stack Developer EdTech BigTreeLand

Developed and maintained a CMS data-entry system and mobile app for student exercises and exam preparation.

- Built and optimized React and Node.js CMS features.
- Developed cross-platform learning experiences with React Native.
- Fixed bugs, refactored legacy code, and improved system performance.

JUN 2025 - MAY 2026

#### Full-Stack Developer BSS Group

Developed Simicart's Mobile App Builder for Shopify across a React/Node.js CMS and React Native mobile apps.

- Built core Shopify merchant features and integrated third-party RESTful APIs.
- Refactored legacy code and improved application stability and maintainability.
- Worked in an Agile/Scrum team with BA, team leader, and developers.

AUG 2025 - DEC 2025

#### Freelance Developer Therafyx / Personal

Integrated a custom Voiceflow chatbot for therafyx.com.

- Designed guided Q&A; and personalized customer-support flows.
- Implemented customer-data storage and management logic.
- Combined AI-driven responses with custom website extensions.

JAN 2024 - JUL 2024

#### Developer Intern / OJT FPT Software

Contributed to a test-management product in the AkaAT ecosystem using React and Node.js.

- Fixed frontend and backend bugs and proposed UI/UX improvements.
- Wrote test cases and supported system verification before production.

### EDUCATION

#### Software Engineering

FPT University Hanoi / Oct 2021 - Aug 2025

Coursework included data structures and algorithms, web development, database management, software requirements, and testing.

### TECHNICAL SKILLS
